

## YILFERT ROSIER ROSASOL 20.20.20+TE

1. It is rich in macro and micro nutrients.
2. Produced using special raw materials.
3. It can be applied in any period, starting from the early development stages of plants.
4. It can be used in all kinds of soil conditions and is completely absorbed by the plant.
5. It can be used safely with drip irrigation, sprinkler or foliar irrigation.
6. Completely soluble in water.
7. Thanks to the special raw materials used in production, it is in a form that can be absorbed by plants even in cold soil conditions with its low pH and low EC value.
8. It has homogeneous particle size.
9. All microelements in it are chelated and produced according to European Union norms.
10. It is a balanced formulation.

MACRO ELEMENTS(%W/W)	20.20.20+TE
TOTAL NITROGEN(N)	20
NITRATE NITROGEN(NO3)	5,4
AMMONIA NITROGEN(NH3)	4
UREA NITROGEN(NH2)	10.6
PHOSPHORUS(P2O5)	20
POTASSIUM (K2O)	20
MICROELEMENTS %	
BORON(B)	0.01
COPPER ETDA (FR)	0,007
EDTA IRON(FE)	0,026
ETDA MANGANESE(MN)	0,032
EDTA ZINC(ZN)	0,023
